CONNECTING WITH YOUR COMMUNITY

ACTIVITY TEMPLATE FOR PLANNING HOW YOU WILL START CONNECTING

What initiative or goal are you developing partnerships for?

Which organizations or people on your map do you want to connect with?

What do you think they each have to bring to this initiative?

What do you think they each have to gain from this initiative?

How might you best connect to each organization on your list (you personally make the initial outreach, you know someone who can make the initial outreach, etc.)?

WiLS *Expanding Possibilities through Collaboration*

What are you specifically asking for? (meet to talk, specific support for the initiative, etc.)

What barriers or concerns might each have about working with you?

Given all this, how – specifically – are you going to make the ask of each person?
