

Privacy Policy for Winnefox Library System App

This Privacy Policy applies to the mobile application, “Winnefox Mobile,” developed by SirsiDynix in collaboration with the Winnefox Library System ("we", "us", or "our").

This Privacy Policy applies to the mobile application, “Winnefox Mobile” with the following app identifiers:

- Google Play: sirsi.mobile.bcmobile_Winnefox_Library
- Apple App Store: sirsi.mobile.bcmobile-Winnefox-Library

This app is provided by and made public by the Winnefox Library System and is operated under its policies. By using this app, you agree to be bound by these terms and conditions.

Data Collection

Personal Information

The app does not collect, store, or share any personal information. Users are not required to provide personal details such as name, email address, or contact information to use the app. However, email addresses may be required to access certain third-party digital content.

Usage Data

The app collects non-identifiable device information to provide app usage statistics. This data includes, but is not limited to, device type, operating system, and app usage patterns. This information is used to improve the app and enhance the user experience. All data is aggregated and anonymized to ensure it cannot be used to identify any individual user.

Location Data

The app may optionally use both precise location data (such as GPS) and approximate location data (like Wi-Fi or cell tower information) to enhance certain features and functionalities. Users can opt out of location services through their device settings at any time to maintain their desired level of privacy and control over the app's functionality.

Data Storage

Any location data used for app functionality is not stored. Non-identifiable device information used for app usage statistics is aggregated and anonymized.

Data Sharing

The app does not share any personal information with third parties. This includes location data, which is neither collected nor shared. Aggregated and anonymized usage statistics are used solely for internal purposes to improve the app.

Security

The app does not collect or store user data, and we are committed to maintaining a secure app environment. Various security measures are implemented to ensure the safety of the app.

Account Creation and Deletion of User Data

Currently the Winnefox Mobile app only acts as a gateway to a user's existing patron library account. In the event that the Winnefox Library System enables the creation of a library patron account in the Winnefox Mobile app, the application will provide an in-app URL so that users can request deletion of their user data. The Winnefox Mobile app does not require users to create an account for basic functionality. However, certain features may require the provision of additional information or account creation for increased functionality. If account creation is enabled in Winnefox Mobile, users will have the right to request deletion of their personal data directly through the application's interface by visiting the account deletion URL located in-app.

Changes to This Privacy Policy

We may update this Privacy Policy from time to time. Any changes will be posted on this page with an updated revision date. Please review this Privacy Policy periodically for any updates.

Contact Us

If you have any questions or concerns about this Privacy Policy or our data practices, please contact the Winnefox Library System using the following link:
